Know the Difference

For most people, gambling is an activity they enjoy occasionally as a form of recreation or entertainment. Many do not experience problems in their lives because they gamble. However, some people who gamble might develop problems in their lives because of gambling. Knowing the difference between entertainment gambling and problem gambling may help to protect you from developing behaviours that might put you at risk with gambling.

Here are some thoughts to keep in mind if you choose to gamble. If you have any questions about your own gambling behaviour, a family member's or a friend's, call the Gambling Helpline at 1-800-463-1554 or 944-6229.
